

HE-VA Grass-Roller

- Centre-suspended wing sections ensure a flexible roller which follows the contours of the field.
- 710 mm steel roller which can be filled with water.
- Hydraulic Activated Transfer-system – ensuring uniform soil pressure in the entire working width.
- Lubrication in all movable links and bearings.
- Compact and low construction – ensures safe and stable transport with quick transfer between transport and working position.

Working width	Diameter of the Roller mm	Weight excl. Equipment & Water kg	Weight excl. Equipment, Filled w/ Water kg	Item Number
* 6.30 m	710	3050	5280	63032-71
* 8.20 m	710	3880	6790	63034-71

* The machine requires 2 double-acting oil outlets.
